**Subject:** Microsofts Antitrust

To Whom it may concern:

I am a strong proponent of capitalism, however, monopolizing the market and prohibiting growth and further development is not what this country is about.

Sadly, in this case, it was the consumer that allowed this to happen. Still, the Department of Justice has an opportunity to right this wrong.

Please do not let Microsoft's greed, backed by large amounts of money, sway the Department of Justice.

Thanks,  
Tony Farrell
